

e-Touch Display

New generation of touch displays
for climate and lighting control
in hotels and buildings

Product presentation

Wide area visualization display to show easily the climate control status

Tactile pushbuttons that provide a modern and innovative feeling

Minimalist aesthetic design finished with different colours methacrylate

Frame polished finished of 2 mm width

Ultrathin, only 8,5mm width from the wall

White illuminated display

Product presentation

Colors white with grey display
backlighted white and black with
black display backlighted white

Visualization of setpoint
temperature, climate mode, fan-
coil speed, room status

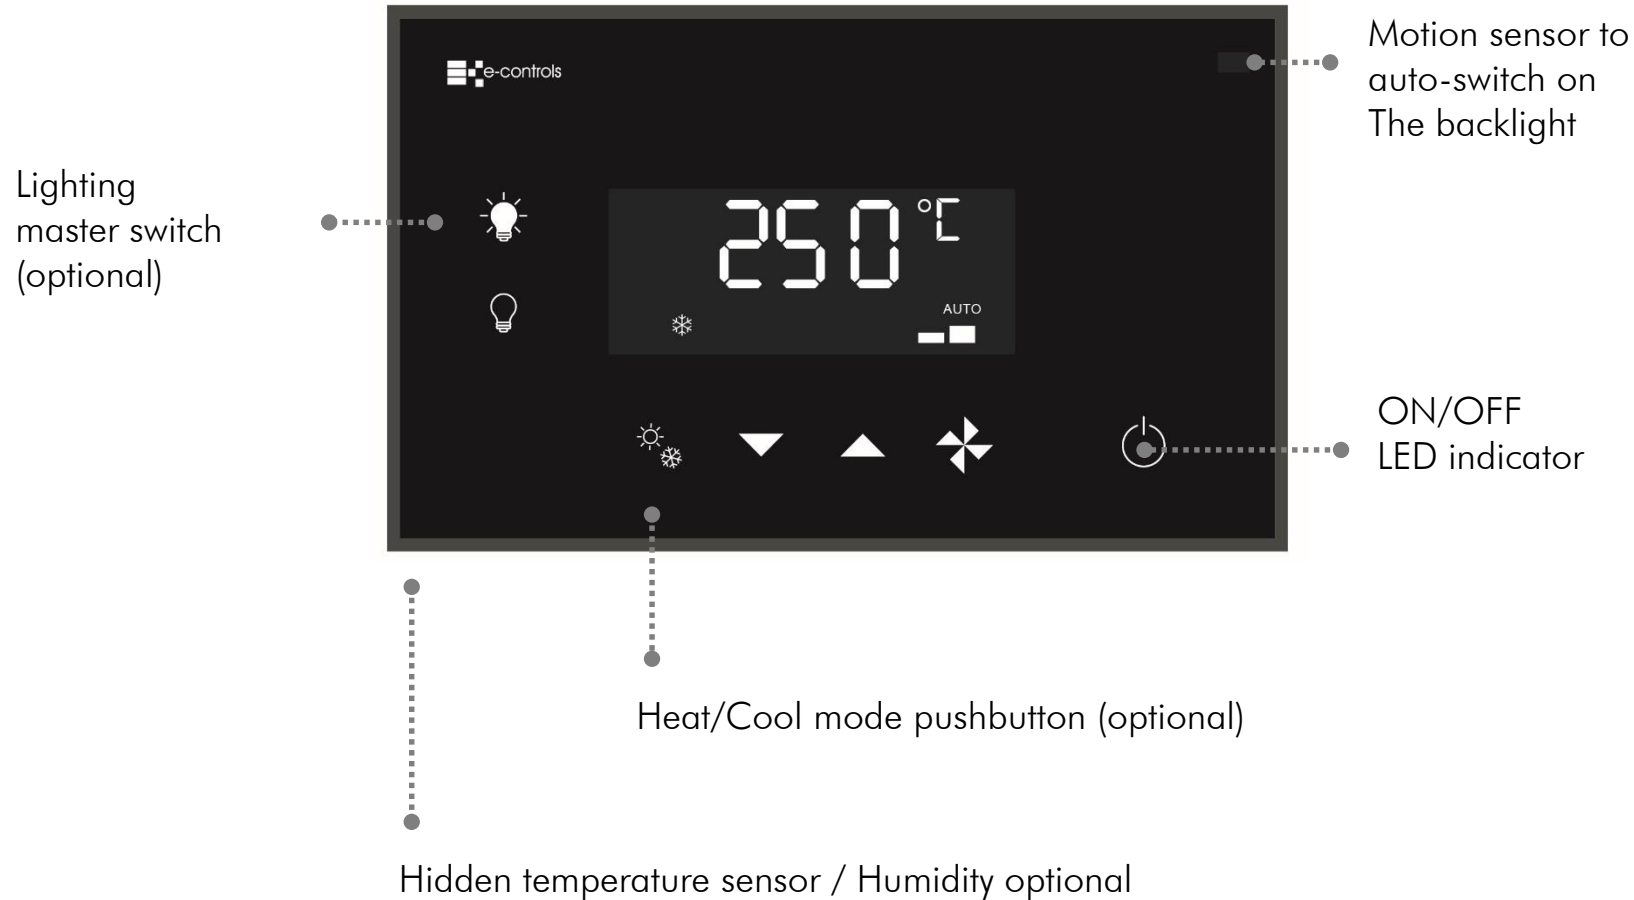

Connected to e-Room Controller
family product

Configuration using an E-
Controls mobile phone APP or
through pushbuttons

Installation with an standard wall
mounting enclosure (504E)

Dimensions 142x86 mm

New added value functions

Up to thirteen models with different icons pushbuttons

New functionalities to provide better comfort

New pushbuttons for lighting control to reduce the cabling in the room

Multiple pushbutton configurations to adapt the device to any request

Temperature and humidity measurement to optimize the energy consumption

New added value functions

Two digital inputs
to connect pushbuttons
In the bedside table

Easy to install pushbuttons for
Lighting control, curtains, ceiling
fan, ...

Cost reduction in cabling of
bedside table pushbuttons

New functions that provide
added value to the building

Design your own device

Freely customization of the product to adapt it to any room style on any hotel

Custom icons for the pushbuttons

Black, White or aluminium frame

Display in black or gray colour

Backlight display in White or blue

Manufacture of the product to any customer request

Device configuration

Configuration tool for the installer/maintenance

New easy to use APP to configure the device

Reduces commissioning time and errors

All configuration parameters accessible from the mobile phone

Data transfer between display and phone using NFC

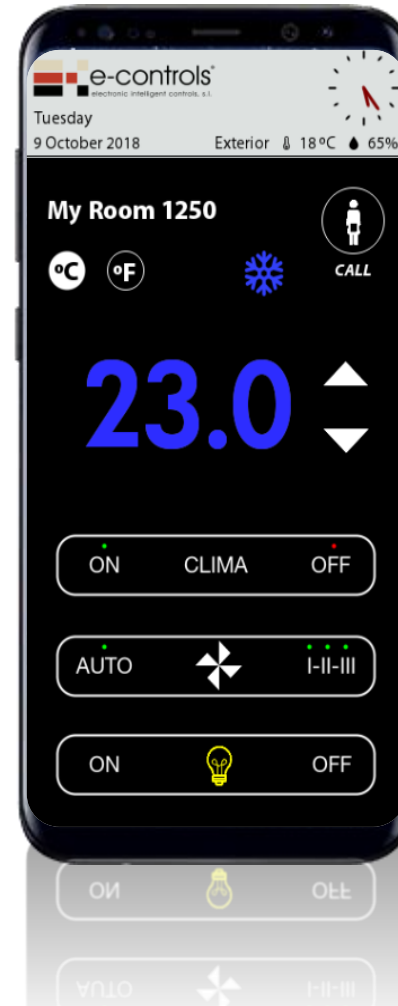

Possibility to save the project and send it to others

Asvailable for Android operating system

Room automation remote control

Graphical interface
for the guest
(optional)

Remote room control using
the mobile phone*

Climate and lighting control
integrated in the mobile
phone or tablet

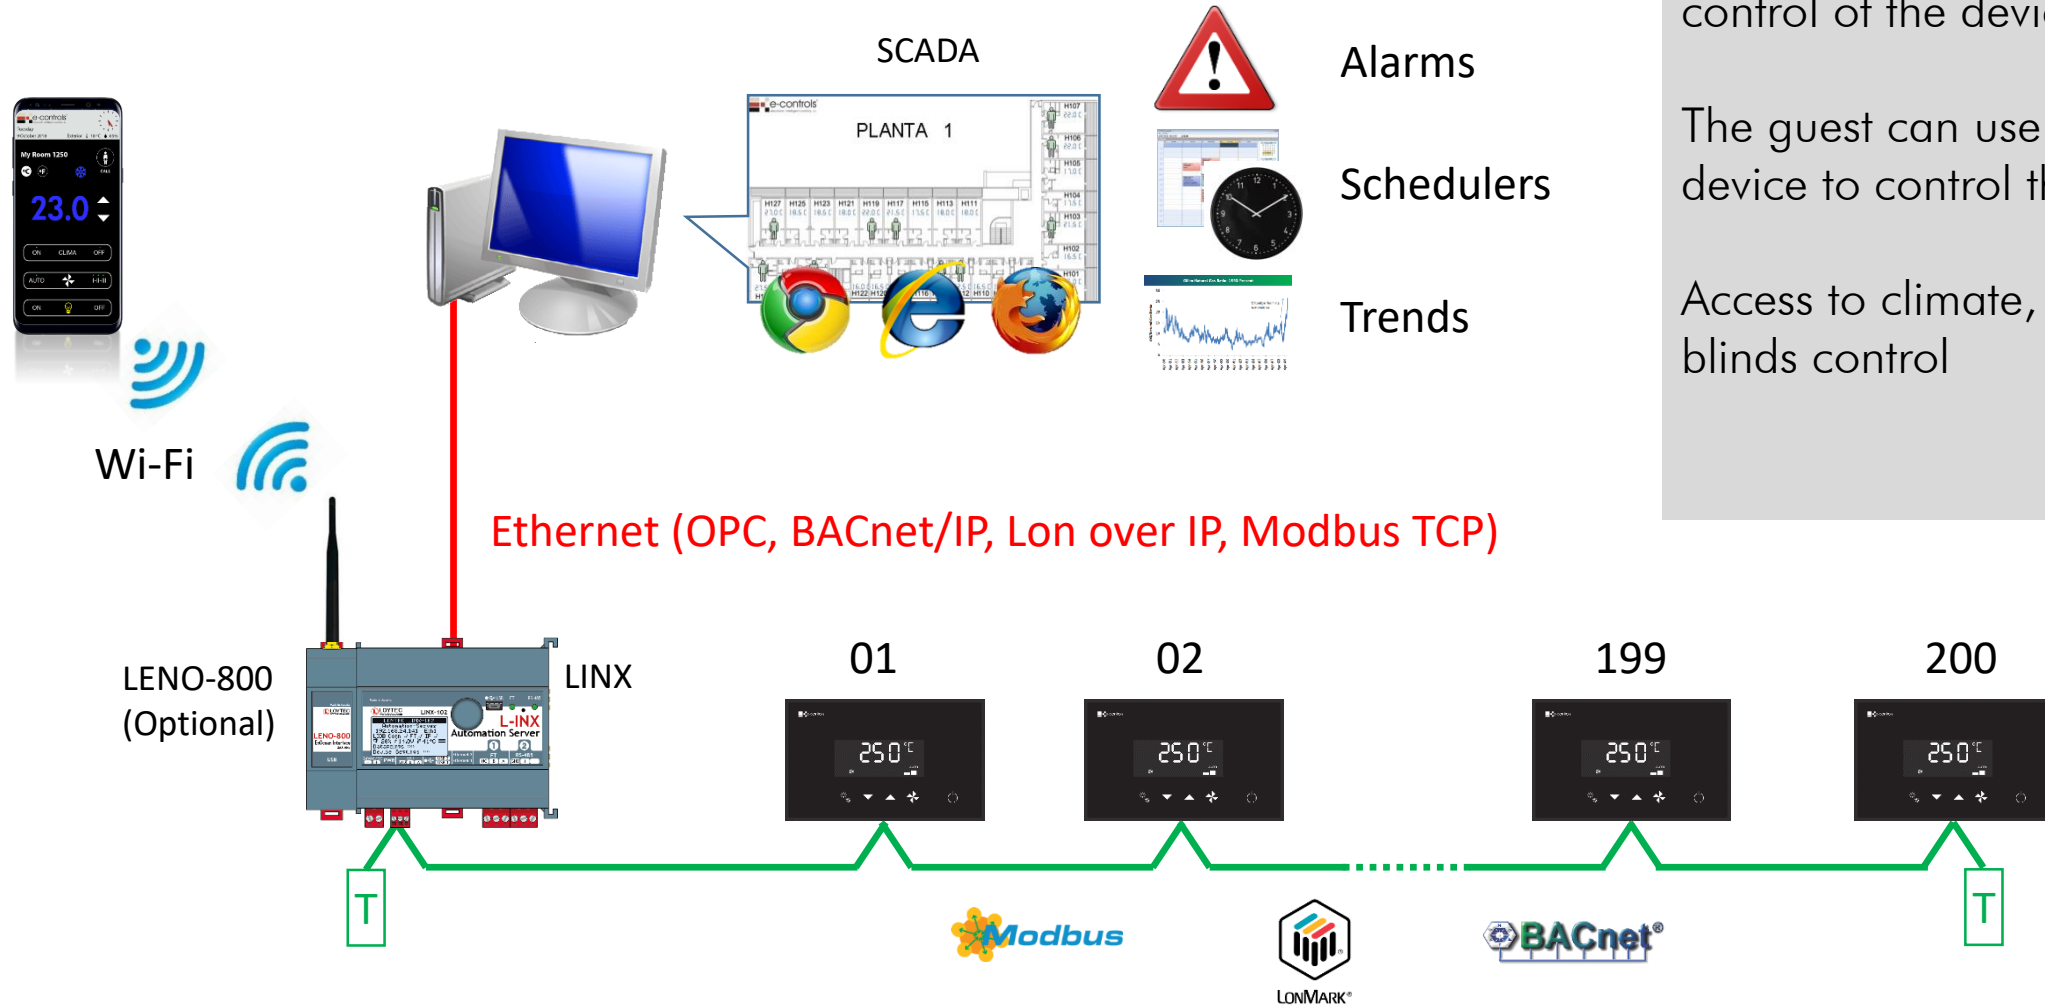

Possibility to show other
parameters like outdoor
temperature and humidity

Call to waitress using the
phone

Information also available
through the TV

* External interface required

Architecture for remote control solution

Web application for remote control of the device

The guest can use any mobile device to control the installation

Access to climate, lighting and blinds control

Product concept is based in a combination of elements *Front Panel* + Control Base

Front Panel

Control Base

Product definition

Combination of elements to select: *Front Panel* + Control Base + *Protocol*

Front Panel

Black

White

Control Base

Fan-Coil EC 0-10V
RT.624421-011
RT.674421-011

Fan-Coil 3 Speed
RT.624501-011
RT.674501-011

Display Modbus
BD.670002-011

Display for DIN rail controller
BD.970001-011

Protocol

Stand Alone

Models of front panel "e-Touch Display"

Examples:

4 Pushbuttons

-T +T Fan OnOff

TD.004000-010

5 Pushbuttons

H/C -T +T Fan OnOff

TD.005000-010

6 Pushbuttons

-T +T Fan OnOff
On/Off Lighting

TD.006000-010

7 Pushbuttons

H/C -T +T Fan OnOff
On/Off Lighting

TD.007000-010

TD.004002-010

TD.005002-010

TD.006002-010

TD.007002-010

Option with humidity sensor: DT.XXXXXX-XXX-HR

Models of "Control Base"

e-Display Control RS485: Control base to interface with DIN rail e-Room Controller

- BD.970001-011 Without digital inputs, supply 12Vdc, RS-485
- BD.972001-011 2 digital inputs, supply 12Vdc, RS-485

Control Base

e-Display Control Modbus: Control base with Modbus

- BD.670002-011 Without digital inputs, supply 24Vdc, Modbus RTU RS-485

e-Room Control ECO 4140: Controller for fan-coil EC (0-10V) 

- RT.624421-011 4 digital inputs, 1 output 0-10V, 3 relay outputs. BACnet/IP+LonWorks, TP/FT-10, 24Vdc
- RT.674421-011 4 digital inputs, 1 output 0-10V, 3 relay outputs. Modbus RTU, RS-485, 24Vdc

e-Room Control 4150: Controller for 3 fan-coil speed 

- RT.624501-011 4 digital inputs, 5 relay outputs. BACnet/IP+LonWorks, TP/FT-10, 24Vdc
- RT.674501-011 4 digital inputs, 5 relay outputs. Modbus RTU, RS-485, 24Vdc

NOTA: The Control base must be installed with 504E flush mounting enclosure
